PAEDIATRICS / EMERGENCIES - SIMULATE TO AVOID ERRORS

20-I13

COURSE COORDINATOR >> Maria Teresa Neto, MD, PhD

COURSE PRESENTATION

This course is a unique opportunity for general paediatricians, paediatricians with expertise in specific areas, general and family physicians, anaesthesiologists and surgeons to upgrade or acquire knowledge in multiple areas of paediatrics. It is known that specialization is a legitimate goal of every doctor, but knowledge of the fundamental areas of paediatrics is an enormous professional and personal value that must be cherished, implemented and instilled in the young doctors aiming to know the Child in its Whole. In reality, the Whole can only be fully appreciated if we know the parts.

Each one module will be an overview on urgent/emergent problems on one specific chapter of Paediatrics: neonatology/perinatology, infectious diseases, gastroenterology, cardiology, respiratory conditions, endocrinology, metabolic diseases, haematology, nephrology, neurology, adolescent conditions, psychiatrics, surgical conditions, transport.

Simulation-based teaching will use high-fidelity simulation, simulation using software/multimedia, simulation of clinical practice and procedures and in situ simulation. Simulation based lessons will be followed by experts on simulation-based education.

LEARNING OBJECTIVES >> KNOWLEDGE AND SKILLS TO DEVELOP

- 1 To demonstrate how to act on the main critical situations in paediatrics
- 2 To practice in a high fidelity model resuscitation procedures
- 3 To practice procedures needed for a safe interhospital transport
- 4 To teach and practice how to diagnose and treat severe common conditions

TARGET AUDIENCE

Medical doctors and nurses

ADMISSION CRITERIA

>> CV and Motivation Letter

ATTENDANCE REQUIREMENTS

100% attendance in 14 of the 16 modules is mandatory for issuing attendance certificate and ECTS

MAX. ATTENDEES

>> 20

PAEDIATRICS / EMERGENCIES - SIMULATE TO AVOID ERRORS

20-113

AGENDA

2020 / MAY

MAY 5TH

9:00 am - 6:00 pm

- >> The seriously ill child at the Emergency room
- >> Recognition and procedures
Introduction, definitions, theoretical issues,
clinical cases, simulated patients.

MAY 19TH

9:00 am - 6:00 pm

- >> Techniques and procedures in paediatrics
Respiratory access

Vascular devices and intraosseous access

Vascular devices in neonatology

Thoracic drainage

Pericardium drainage.

MAY 12TH

9:00 am - 6:00 pm

- >> Cardiorespiratory resuscitation
- >> Basic and advanced life support.

MAY 26TH

9:00 am - 6:00 pm

- >> Neonatal and Paediatric Transport
- >> Organization of a system of paediatric
and neonatal transport
How to plan one specific transport.
To prepare the material

Criteria for transport, evaluation
and stabilization in the origin

Specificities of the neonatal
and paediatric transport

Transport of the polytraumatized patient

Transport of a patient under hypothermia

Specificities of airway transport

Arrival to the Intensive care unit

Ahed.

PAEDIATRICS / EMERGENCIES - SIMULATE TO AVOID ERRORS

20-I13

AGENDA

2020 / JUNE

JUNE 2ND

9:00 am - 6:00 pm

>> Neonatal emergent situations

Acute anaemia and isoimmunization

Difficult airway

Surgical conditions

Cardiac disease

Hydrops fetalis

Sepsis and septic shock

Acute abdomen

JUNE 16TH

9:00 am - 6:00 pm

>> Heart emergencies

Heart murmur - simulation
and interpretation of normal and abnormal

ECG - normal and arrhythmia - simulation
and interpretation

Cardiac failure in a sick patient -
- the near-bed US value: function evaluation;
how to evaluate dysfunction; fluid effusion;
intracavitary masses

Chest pain and syncope. How to identify
disease and how to evaluate available
exams (ECG; holter; effort proof; tilt test)

When and who should be evaluated for
cardiovascular risk: the value of available
exams (ECG; holter; effort proof; tilt test)

JUNE 23RD

9:00 am - 6:00 pm

>> Emergent kidney disease

Hypertensive crisis

Nephritic and nephrotic syndrome

Hydric, ionic and acid-basic imbalance

Acute renal lesion

JUNE 30TH

9:00 am - 6:00 pm

>> Neurologic emergencies

Seizure disorder

Coma

Acute gait disturbances

Headache

Consciousness disturbances

Ahed.

PAEDIATRICS / EMERGENCIES - SIMULATE TO AVOID ERRORS

20-113

AGENDA

2020 / SEPTEMBER

SEP 15TH

9:00 am - 6:00 pm

>> Infectious emergencies

Sepsis and meningitis

Empirical antibiotic therapy
for frequent pediatric infections

Osteoarticular infections

Infection of the immunocompromised child

Infectious emergencies of the traveller child

SEP 22ND

9:00 am - 6:00 pm

>> Endocrine and metabolic emergencies

Diabetic ketoacidosis

Suprarenal hyperplasia

Hypoglycaemia

Metabolic disease in the neonate

Metabolic disease imbalance

SEP 29TH

9:00 am - 6:00 pm

>> Haematologic emergencies

Acute anaemia

Acute complications of sickle cell disease

Acute Haemorrhage

The haemophilic child

Blood transfusions in paediatrics

2020 / OCTOBER

OCT 6TH

9:00 am - 6:00 pm

>> Gastroenterological emergencies

Ingestion of caustics

Upper and lower digestive haemorrhage

Foreign body intake

Acute liver failure

Ahed.

PAEDIATRICS / EMERGENCIES - SIMULATE TO AVOID ERRORS

20-113

AGENDA

2020 / OCTOBER

OCT 13TH

9:00 am - 6:00 pm

- >> Respiratory emergencies
- >> Clinical case with theoretical introduction
 - Bronchiolitis
 - Foreign body aspiration
 - Hemoptysis
 - Pneumonia
 - Pneumothorax
 - Ventilated chronic patient
- >> Bases for non-invasive ventilation
- >> Bases for high flow
 - Contact with ventilators
 - Contact with masks
 - Contact with filters, tracheal devices, humidifiers
 - Contact with high flow
 - Contact with bronchoscope
 - Videos of procedures namely bronchoscopies

OCT 20TH

9:00 am - 6:00 pm

- >> Surgical emergencies
 - The polytraumatized patient
 - Acute abdomen
 - Acute scrotum
 - The burned patient
 - Basic suture course
 - Cleaning and treatment of wounds
 - The new-born with surgical conditions

OCT 27TH

9:00 am - 6:00 pm

- >> Psychiatric emergencies

2020 / NOVEMBER

NOV 3RD

9:00 am - 6:00 pm

- >> High fidelity scenarios
- >> Clinical scenarios on several urgent and emergent issues trained in high fidelity models

LOCATION

The course will be held at NMS' Centre for Simulation and Techniques in Paediatrics at Dona Estefânia Hospital, at the Advanced Simulation Centre of the same hospital and at the Advanced Simulation Centre on Maternal and Child Health at NMS. Eventually, some modules may occur in Hospital Services according to the needs of the module

FACULTY

- >> Ana Cristina Ferreira, MD
- >> Marta Oliveira, MD
- >> Catarina Limbert, MD
- >> Fátima Pinto, MD
- >> Francisco Abecassis, MD
- >> Gonçalo Cordeiro Ferreira, MD
- >> João Estrada, MD
- >> José Pedro Vieira, MD
- >> Luís Varandas, MD
- >> Margarida Abranches, MD
- >> Maria João Lage, MD
- >> Ana Casimiro, MD
- >> Paula Kjollerstrom, MD
- >> Pedro Caldeira da Silva, MD
- >> Pedro Garcia, MD
- >> Rui Alves, MD

CREDITS >> 11.5 ECTS

DURATION >> 128 HOURS

PRICE >> 2.550€

INCLUSIONS AND EXCLUSIONS IN PRICE

The price published for each course includes teaching fees, space rental, certificate of attendance, and materials used during the course. The price of the course doesn't include hotel accommodation, lunches, and dinners on course days, nor any other items unless specifically mentioned. Prices of courses published by AHED are exempted of VAT. Other items priced by AHED apart from courses may however include VAT.

APPLICATION, ADMISSION AND REGISTRATION

When applying for a course at AHED – Advanced Health Education, the applicant subjects personal and professional data that will be verified and assessed to check that admission criteria for that specific program are met. Once an application is approved, registration in the course is admitted and will require payment of the price published for the course.

APPLICATION FEES

Application fees are as follows:

- 100 € for courses priced above 1000 €
- 50 € for courses priced below equal to 1000 €

Application fees are non-refundable.

COURSE REGISTRATION FEES

The registration stage is considered completed when the total price of the course is received by AHED.

PAYMENT OPTIONS

Payment options for application and registration include credit card (Visa, MasterCard), wire transfer in Euro, and Multibanco.

EARLY BIRD

Application fees will be discounted from the course price for registrations completed 90 calendar days before the date of the course.
